

4647 NW 6th St. Ste. F Gainesville, FL, 32609 USA

Certificate of Distribution

29 June, 2018

With this certificate, **Digital Control Lab**, LLC, a USA based company, grants permission to the research and production company, **Doka**, a Ukrainian based company, the rights to distribute and negotiate and install Digital Control Lab's products in the following countries: Ukraine, Kazakhstan and Uzbekistan. Doka honors and preserves all Digital Control Lab product warranties in the previously mentioned territories.

Digital Control Lab, LLC. (USA) is both the developer and manufacturer of vibration monitoring and control equipment for optimizing the operation of drum mills used in grinding. These mills can be found in minerals, mining, cement and energy industries. Digital Control Lab sells products worldwide in Europe, Asian, South America, North America and Australia. Digital Control Lab's main product, MillScan, has been installed at over 600+ installations in these continents.

Currently, there are over 600+ MillScan systems installed worldwide and 20 MillSlicer systems installed in minerals and mining. More details can be found at www.digitalcontrollab.com and via direct communication with Doka, the new local distributor. This agreement is valid for all future product representation but can be terminated by either Digital Control Lab or Doka per email or similar forms of communication.

Sincerely, Karl S. Gugel

A handwritten signature in black ink, reading "Karl S. Gugel", is displayed on a light-colored rectangular background.
